WORKSHOP SERIES:

DRAFTING, MAPPING & ATTAINMENT OF OUTCOMES

Organised by
Internal Quality Assurance Cell

Sign up for a hands-on workshop series on CO, PO, PSO.

ABOUT THE COLLEGE

The Lions Club of Malad-Borivli, an international social organisation realized the necessity of establishing a Commerce College in the western suburb of Mumbai-Malad in 1972 to cater to the needs of the society. The vision envisaged by the stalwarts of the Club was finally converted into reality and the foundation stone of the college was laid in April, 1972, with a handsome donation from the Dalmia family of Prahladrai Dalmia Charity Trust. Within a record period of 100 days the college building was completed. The college was inaugurated by Mr. T. K. Tope, the then Vice Chancellor of Bombay University. Since then the College has continued its contribution in providing quality education to students. We have reached a milestone and this year - we are celebrating the Golden Jubilee Year of the College.

The Institution has today become one of the premier institutes in the western suburbs. The College endeavours for academic excellence and promotion of co-curricular and extra-curricular activities that promote resilience, creativity and leadership qualities among the students. The College lays great emphasis on inculcating in its students the importance of ethics, hard work and commitment to excellence.

The College endeavours to groom its students as icons of tomorrow, potentially contributing to Commerce trade, industry and management. The College inculcates character building qualities like discipline and punctuality in the students and provides a platform for them to organize various sports and cultural events and achieve excellence in all quarters. The College has an exceedingly committed staff. The College is progressing and has added numerous professional courses to its bouquet of courses- MCom, BCom, BMS, B. A. M. M. C, BBI, BFM, BCom[IM], BAF and BSc – IT.

CONCEPT NOTE

The University Grants Commission (UGC) has now taken steps to introduce the Outcome-Based Education (OBE) system for all universities in the country with a view to producing skilled graduates as per demands of job markets. Its 'Quality Mandate' lays great emphasis on improving quality of teachers, imparting life skills to students and changing the assessment pattern. It states, "To ensure evaluation that is more student-oriented than examination-oriented, outcome-based education (OBE) is an important alternative and HEIs (higher education instituted) may need to implement this as early as possible". The mandate also states, "The concept of OBE stresses the importance of demonstration of learning outcomes by students rather than just attaining marks in the examination."

Thus the need of the hour is a thorough understanding of the concept of Outcome based Education, that can be measured and mapped through: ·Course Outcomes (CO) - Knowledge & skills acquired via course/curriculum ·Program Outcomes (PO) - Expertise developed after completion of the program ·Program Specific Outcomes (PSO) - Expertise of graduates of a certain program. The NEP 2020 lays emphasis on ICT and LMS integrated technology for meeting the teaching-learning goals to maximize the student learning outcomes.

About the Workshop Series

This series of workshop on: "Drafting, Mapping and Attainment of Outcomes" is a hands-on workshop that aims to bring to the teaching fraternity a thorough understanding of the major concepts involved and practical sessions on the process involved in drafting, measuring and mapping the attainment of outcomes.
